Grant Jewelry Co. shake hands late yesterday after deal was closed which sold the business operated by J. Roy Staiger and LeRoy Reese to Tommy Foster and John A. Hill. ## John A. Hill and Tommy Foster Buy W. A. Grant Jewelry Company

One of Harrisburg's oldest business institutions—the W. A. Grant Jewelry Co.—has changed hands.

Today the new owners of the business on the south side of the square are John A. Hill and Tommy Foster, who yesterday completed buying negotiations with J. Roy Staiger and LeRoy A. Reese, who are retiring.

Mr. Hill and Mr. Foster are not new to the business. Mr. Hill, a watchmaker for the past ten years, has been an employee of Grant's for seven years. Mr. Foster also has been a watchmaker for ten years, being employed at Winkelman's before joining with Mr. Hill in the purchase of Grant's.

Both new owners emphasized that they will continue the same policy of friendly and dependable service and will sell the same high quality merchandise that has been connected with Grant's during the years.

The W. A. Grant store has been at the same location during its more than a half-century in Harrisburg, believed to be a record for local businesses.

### Issue Permits for Two Oil Tests

### Open House at Junior High November 10-11

Two open house sessions have been scheduled so patrons and others may inspect the new and rebuilt sections of the Junior High school in Harrisburg.

The school will be open Saturday afternoon and evening, November 10, from five till nine o'clock and on Sunday afternoon, November 11 from two till five o'clock.

Many patrons have never been inside the addition to the old building, which was accepted from contractors late in December, 1954, just a few days before fire gutted the old building, and only a few have seen the rebuilt old addition.

It is the thought of Russell Malan, superintendent, the school board of District 43 and the Junior High staff that the open houses will permit inspection of the building at the will of the patrons, and when formal dedication is made at a later date, full attention may be given to the dedication cere-

The two days have been set to give added convenience to those who wish to visit the school.

Formal invitations have been sent to school officials in surrounding areas, and it is anticipated many of them will visit the school on Sunday afternoon, November 11.

The building will be generally complete at the time of the open houses, with the possible exception that stage decorations may not be in place.

### Father of John Bishop Dies

John Cyril Bishop, 68, life long resident of Alexander county, died in Union county hospital in Anna, Monday night. His home was seven miles south of Thebes, Ill., near Cairo.

Air conditioning has been increased to include the new addition and a new intercommunication system has been installed.

"Shopping the check-out system is much easier and faster," he said.

Removal of interior walls gave Kresge's a huge 10,000 square foot salesroom complete with brand new fixtures and fresh interior decor. New maple flooring has been installed in the addition to match flooring in the old section.

Countertop extends some 1400 linear feet.

Super-bright fluorescent lights make the variety store one of the brightest in Harrisburg.

The familiar root beer department between the front entrances has been relocated to make room for new check-out stations, but the luncheon fountain is unchanged.

Self-selection counters, designed with graduated tiers to allow a vast display of merchandise, will be used exclusively. Salespeople will be stationed out in the aisles except for departments where special services are necessary.

Check-out shopping allows the shopper to browse leisurely through the store comparing prices and quality or to quickly select

the desired items from various counters. All items are paid for at one time, saving the time formerly used while separate packages are wrapped and paid for at each counter.

Store office is located at the rear of the addition and the employees' lounge has remained on the second floor.

Air conditioning has been increased to include the new addition and a new intercommunication system has been installed.

Harrisburg's modernization is part of Kresge's current expansion program. That variety store chain expects to complete more than 100 new stores and major remodelings by the end of 1957.

The S. S. Kresge company now has 670 stores in central and northeastern United States and Canada.

Plans for the addition and alterations were drawn by the Kresge design division under the direction of Emil G. Jehle, staff architect.

Eugene M. Van Zandt represented Kresge's as building superintendent. General contractor was the H. E. Mitchell Construction company.

# Egypt Announces Suez Canal is Blocked by Sunken Ship; No U. S. Involvement: Eisenhower

## President Says U. S. Will Seek End to Fighting

### Meets with Joint Chiefs of Staff, Security Council

WASHINGTON (UPI) — The White House said today that this country's United Nations moves were "one way" of honoring its 1950 pledge to aid victims of aggression in the Middle East.

It was silent, however, on whether the administration is considering any other means of fulfilling the 1950 pledge to which this country subscribed along with Great Britain and France.

President Eisenhower announced in a broadcast to the nation Wednesday night that "there will be no U. S. involvement in these present hostilities." But he said the United States would try to "localize and end" the fighting.

For two hours today he discussed means of doing that with the National Security Council—his top advisory agency—and the Joint Chiefs of Staff and the civilian heads of the military services.

### Junks Mission to Israel

While this meeting was going on the U. S. Export-Import Bank canceled plans to send a special mission to Israel to survey the possibility of a 75-million-dollar development loan. The United States is considering cessation of all economic aid to the embattled Jewish state. Israel has been getting such aid under a \$26,800,000 program for the fiscal year ending June 30.

White House Press Secretary James C. Hagerty said there will be no White House statement on today's Security Council-military deliberations.

Rental property now occupies most of the new acquisition, purchased from Mr. and Mrs. Kenneth Capel, Mr. and Mrs. Carl W. Rude and Mrs. J. V. Capel. For the present, the rental property will not be disturbed.

Dr. W. D. Tuttle, president of the Medical Foundation, in presenting the property purchase proposal to the directors, suggested it is obvious additional facilities will be required in Harrisburg in the future. Continuous modernization of hospital facilities indicate the need of a new building, he said, and the new property would permit erection of a more efficiently operated single floor structure.

A recent grant from the Ford Foundation and anticipated future assistance from that project and other sources are expected to help when the building project becomes more certain.

## Halloween Event Uptown Here A Huge Success

Halloween today is over for another year and city police and Legionnaires were well-pleased with the event for 1956.

The big uptown celebration, sponsored annually by George Hart post of the American Legion to keep the young people from activity in the residential areas, was a huge success. The square was roped off for the 200 or 300 costumed persons and the extra hundreds who came to town to see the show.

Dozens of prizes were given for the best costumes and lots of treats were in store for the children. Merchants co-operated with the Legion in making all this possible.

While the fun was going on and judges watched the grotesque, the funny, the fiery, the pretty costumes, there was organ music from the Lloyd L. Parker furniture store on the east side of the square and record music on the south side.

The weather was ideal for such an event.

Junior police members helped Legionnaires in handling the big event.

Chief of Police Ross Lane today said he was well-pleased with the Halloween activity this year.

"I wish to express my appreciation to the youth of Harrisburg for the way they conducted themselves during the Halloween season," he said. "Their conduct was much better than average this season and I am sure that the community as a whole will join with me in thanking these young people for refraining from acts of vandalism. We received very few calls this year from the public because of Halloween pranks. I am very well satisfied."

## UN General Assembly to Take Up Mid-East Crisis In Emergency Session

UNITED NATIONS, N. Y. (UPI) — The U. N. General Assembly takes up the Middle East crisis at 4 p. m. CST today in the first emergency session of its 11-year history. There were strong indications Britain and France would boycott the session as "illegal."

The Security Council requested the emergency session by a 7 to 2 vote Wednesday night over the vehement objections of Britain and France. The United States joined Russia, China, Yugoslavia, Cuba and Peru in asking for the meeting to end the fighting. Australia and Belgium abstained.

The British and French delegations promptly labelled the action "illegal" and there were grave doubts either would attend. The delegates were silent on this point but most diplomats speculated they might show up for the opening and then stage a dramatic walkout.

Sir Pierson Dixon, the British Zone.

delegate, and Louis de Guiringaud, the acting French representative, told the council their governments reserved "complete freedom of action" on today's assembly meeting — a strong hint they might not attend.

The Security Council requested the emergency session by a 7 to 2 vote Wednesday night over the vehement objections of Britain and France. The United States joined Russia, China, Yugoslavia, Cuba and Peru in asking for the meeting to end the fighting. Australia and Belgium abstained.

Tuesday night Britain and France vetoed an American-sponsored resolution asking an immediate halt to the Israeli-Egyptian fighting.

Then Wednesday Yugoslavia led other nations in asking for today's session.

The call to U. N. members on the threat or use of force would deprive of any international legality the dispatch of British and French troops to reoccupy "temporarily" key positions in the Suez Canal.

## Hear Objections To NYC Proposal

MOUNT CARMEL, III. (UPI) — Ob-

jections to a petition to remove two New York Central passenger trains were heard today in a regional hearing conducted by the Illinois Commerce Commission.

Businessmen from several southern Illinois towns served by NYC trains No. 462 and 463 from Danville to Harrisburg said removal of the trains would hurt business by delaying arrival of mail and merchandise.

Francis Blair of the ICC opened the hearing at 9 a. m. before more than 200 persons who packed the Wabash County courtroom. Testimony was expected to be heard throughout the day.

No final decision on the railroad's application to discontinue the trains was expected today.

The NYC first attempted to abandon the two trains in 1954 because it said it was losing money on their operation. A New York Central Users Defense Committee, representing southern Illinois towns served by the trains, was organized to oppose the abandonment.

In the Sinai desert, Israel claims to have cut off the 20-mile Gaza Strip from the rest of Egypt and to have bottled up some 20,000 of the cream of Egypt's army.

Egyptian President Gamal Abdel Nasser said over Cairo Radio that Egypt "will fight a total war."

### Egypt Breaks Relations

"We will fight in the villages and from ditch to ditch," Nasser said.

It was Nasser's defiant reply to French and British announcements that they will continue their attacks until the fighting between Egypt and Israel ends. There was no sign of any such end.

From Damascus came word that Syrian forces had clashed with Israeli and had penetrated into Israel before withdrawing.

The clash was said to have been with Israeli border patrols.

Diplomatic action kept pace with the fighting.

Egypt broke off relations with France and Britain.

Syria recalled its ambassadors from London and Paris for "consultation." Iraq was preparing for consultations with both Egypt and Britain, with each of whom it has treaties.

### Crisis in Britain

In London, Prime Minister Anthony Eden faced the greatest test of his career, under angry and determined attack by the Laborites. He was expected easily to survive a vote of confidence, but admittedly the fate of both himself and his government hung on the outcome of the Mideast conflict.

At the United Nations in New York, the General Assembly was to meet at 5 p. m. to consider the Mideast tinderbox. It was likely both France and Britain would boycott the meeting. Egypt threatened to quit the U. N. because of its failure to prevent the Anglo-French attack.

The Egyptian communiqué said that British and French planes had attacked Egyptian land forces while they were crossing the Suez Canal at several points, especially in the Ferdinand area.

### The Dove with Fangs

**Editorial — BY BRUCE BROSSAT**  
These are surely among the unhappiest days in the Kremlin since the close of World War II. Not only have cracks developed in Russia's satellite empire, but the Communist leaders are having to show again the fraudulence of their pose as "peace lovers."

Their position is not without its irony.

In Poland, their display of armed might added up to nothing as they reluctantly accepted the accomplished fact of the Poles' new partial independence.

Then Hungary erupted and Moscow felt compelled to use force swiftly to quell heavy rioting.

So the Soviets have evidently lost ground on both counts. They have neither preserved their empire as it was, nor have they kept the image they have fostered so long that communism is the way of peace and order and human betterment.

Poland's gains may be relatively modest when measured against the standards of true freedom. The government is still Communist, though nationalists rather than pro-Soviets now dominate it.

Nevertheless, the exercise of this defiance is a tonic to freedom not only in Poland but in all the satellites.

Russia may not concede it has lost this struggle. It may believe it can bide time and recapture its powerful hold on the Poles in other more favorable circumstances.

But the net of it today is bad news for Moscow.

Hungary is the proof of that, and the cause, at once, of the Kremlin's second headache. For their rebellious spirit burst forth so vigorously that Moscow's answer to the Hungarians was inevitably planes and tanks.

In giving that reply, it has once more stripped off the peace mask and exposed itself as the practitioner of violence.

The years of carefully nurtured propaganda aimed at winning Asiatic and other uncommitted peoples have been put in grave jeopardy. Even the most gullible neutrals and other fence-sitters must be appalled at Russia's use of force to crush this upwelling of spirit in Hungary.

Since Communist governments still reign in both Hungary and Poland, it can't be said that freedom has won great victories there. But the bonds of tyranny have been weakened. That is a big step toward final freedom, and surely represents huge gains for the free world watching these remarkable events.

### The Washington Merry-Go-Round

By DREW PEARSON

**DREW PEARSON Says: Israel Feared Russian Arms in Nasser's Hands; War Was Inevitable After Suez Dispute Ended; No Borders in Palestine.**

**WASHINGTON.** — The reason for the Israeli attack on Egypt was quite simple. It was based on the assumption that Colonel Nasser, once he had the Suez Canal dispute settled and the French and British armies off his neck, was certain to attack Israel.

As long as the United Nations had him on the spot and as long as British and French troops hovered near him, Israel knew it was in no danger.

But with around \$200,000,000 worth of Russian arms stashed away in his arsenals, and with the Arab world looking to him for leadership against the West, Nasser was almost certain to attack.

Israel had the alternative of sitting still, expecting an overnight raid from modern Russian MIG's which could reach Tel Aviv from the Egyptian border in about 30 minutes, or of taking the initiative.

So when Iraqi troops entered Jordan to cement a military alliance, and when Jordan, Syria and Egypt also tightened their military hook-ups, Israeli army chiefs decided it was time to strike.

**AS BIG AS MASSACHUSETTS**  
To get the picture of what's going on, you have to envisage a little country about the size of Massachusetts, only much narrower in spots. In one place Israel extends only seven miles from Nathanya on the Mediterranean, named for Nathan Strauss, the first U. S. housing administrator, to the border of Jordan. The airport near Tel Aviv is only two and a half miles from the border, while Jordan comes within ten yards of the Sea of Galilee.

Thus, in every direction Israel faces, except toward the Mediterranean, she is surrounded by Arab neighbors.

This came about because in 1948, when the British gave up their Palestine mandate under the League of Nations, the Arab countries decided to move in and carve up Palestine. They were so confident that some weathered Arabs left their homes with all their clothes behind figuring they would be back in a few days after the Jews had been pushed out.

Instead the Jews pushed the Egyptian army, strongest of all the Arab forces, right down to the edge of the Suez Canal.

They would have pushed them back to Cairo if the British hadn't intervened.

Other Arab neighbors were pushed back well beyond the original boundaries proposed by the United Nations in 1947. Jewish leaders had accepted this boundary. The Arabs had not. Ever since, the Arabs have been trying to go back to the 1947 UN proposal which they rejected.

But Premier Ben-Gurion's reply is: "We accept if the Arabs will return the 5,000 dead Israelis lost in that war."

**WARS SINCE GOLIATH**

None of the borders around Israel are marked by barbed wire entanglements or even stone markers. When you come to the edge of the Iron Curtain around the Soviet, you are halted by a mass of barbed wire. Along the Canadian-American boundary are white stone pillars.

But between Israel and the

An Arab girl can be tending her flock on one side of the border and a young Jewish farmer can be driving a tractor a few yards away. They know where the border is because they live there. A stranger wouldn't.

This lack of fortifications makes border raids easy. Raids parties forged back and forth across the border at least once a week while I was in Israel.

The Negev, where the trouble started between Egypt and Israel, is one of the wildest, roughest areas in the Near East. Bedouins and their flocks roam over parched sand and hills that remind you of the table land of Arizona or the Bad Lands of South Dakota.

It is not a land worth fighting for, but war after war has been fought here nonetheless since David slew Goliath and since Samson slew the Philistines with the jawbone of an ass.

It is down in this corner between Israel and Egypt also that Moses led the Tribes of Israel across the Red Sea as far as the hills of Moab. More recently it is in this general area that the Egyptians have cut off Israeli ships from coming up to Elath at the head of the Red Sea. They have even prevented Israeli planes from flying over this area. Israeli ships were the first to be banned from the Suez Canal, even at a time when France and Britain still controlled its navigation.

**PACKAGE PLANS FOR PEACE**  
The only thing that could have stopped a Near Eastern War was a package peace plan for both Suez and the entire area. Such a package plan was advocated by

Ambassador Eric Johnston, Republican, and by Harry Truman, Democrat. Truman had worked out the plans before he left the White House. Johnston has been to the Near East several times in the past three years to try to put them across.

The State Department under John Foster Dulles, however, never had much confidence in these plans, and Dulles in his frantic zigzagging across the Atlantic over Suez either forgot or ignored them.

Johnston argued that the Suez Canal would be out of date in ten years, would have to require another canal or two more pipelines in order to carry enough oil for western Europe. But you can't lay pipelines across hostile Arab nations. They cut them in two.

Johnston was also working on a Jordan river irrigation project similar to the Tennessee Valley Authority to benefit Israel, Syria, Lebanon and Jordan.

Truman's ideas were more expansive. He wanted to reconstruct the irrigation system of the Tigris and the Euphrates which once made what is now Iraq one of the most prosperous countries in the world. He wanted to build a special canal from the Mediterranean to the Dead Sea to generate enough water power to make that country the industrial center of the Near East.

Truman and Johnston have argued that the Arabs and Jews are both Semitic peoples, both descended from the Prophet Abraham, and that tying them together on economic projects could finally bring peace to the Near East.

# Eisenhower to Defend Handling Mid-East Crisis

By United Press

President Eisenhower, highly indignant over Adlai E. Stevenson's charges of bungling GOP foreign policy, fights back today in defense of administration handling of the Middle East crisis.

Stevenson asks today for free radio and television time to tell how the Eisenhower administration has taken "the whole world to the brink of another war."

Mr. Eisenhower is scheduled to make a nationwide television and radio campaign address from convention hall in Philadelphia at 8:30 p. m. CST tonight.

Clayton Fritchey, Stevenson's press secretary, said the Democratic presidential candidate was asking radio and TV networks to give him 15 minutes at 6 p. m. CST tonight to comment on the presidential statement on the Israeli-Egyptian fighting and the Anglo-French ultimatum.

## Replies Indirectly to Message

The White House ignored for the moment a Stevenson telegram to the President Wednesday night counseling Mr. Eisenhower against any "hasty action" in sending American troops abroad.

Mr. Eisenhower, in a report to the nation Wednesday night, said there will be "no United States involvement" in the current hostilities involving Israel, Egypt, Great Britain and France.

The President's statement was regarded presently by the White House as sufficient answer to Stevenson who sent his message shortly before Mr. Eisenhower spoke.

In his strongest accusation against administration foreign policy, Stevenson said the President and Secretary of State John Foster Dulles "bear a heavy responsibility" for the Middle East situation.

The President, in a preamble to his address Wednesday night, said the events and issues involved in the Middle East "have no connection whatsoever with the matters of partisanship."

## Two Killed in Auto Collision in Fog

MCLEANSBORO, Ill. (UPI) — Fog was blamed for a two-car head-on collision in which two persons were killed near here Wednesday night.

Authorities said the collision occurred 10 miles west of here on a curve of Ill. 14.

## Zeigler Coal and Coke Co. Buys Sparta Mine

CLEVELAND (UPI) — The Zeigler Coal and Coke Co. today announced the purchase of the Bradbury coal mine of the Midwest Utilities Corp. at Sparta, Ill.

The sale price was not disclosed in the announcement.

The Bell and Zoller Coal Co., of Chicago, will handle the sale of all coal for Midwest, a New York firm, until Jan. 2, 1957, when the sale becomes effective, and thereafter for the Zeigler firm.

The mine has an estimated annual production of from 800,000 to 1-million tons.

## Rescued After Clinging To Rope in Well

WEST FRANKFORT, Ill. (UPI) — Firemen rescued a 260-pound man Wednesday night who had clung to a rope in a well for more than an hour.

Fire Chief Fred Harkins said Kurt Reed, 33, was working on a pipe in the well. The fire chief said the lack of oxygen weakened Reed so he was unable to ascend the rope in the 30-foot well.

Reed's wife summoned firemen.

## Tricks or Treats

NIAGARA FALLS, N. Y. (UPI) — Joseph Harbatowski told police he was robbed of \$1,170 Wednesday night by two gunmen who said "tricks or treats" when his wife answered the door of their home.

Some 75,000 riders will be affected by the strike.

## Bus Strike Hits Eastern States

CLEVELAND (UPI) — A midnight walkout tied up bus service of Eastern Greyhound lines in 18 states today.

Negotiations were continued in a closed session through the early morning hours here today in an attempt to reach agreement.

Eastern Greyhound serves an area from the Mississippi River east to the Atlantic Coast and as far south as Norfolk, Va., and St. Louis, Mo. A total of 4,000 workers are idled.

The workers are members of the Street Railway and Motor Coach Union, which seeks a 30-cent hourly wage increase over the next two years six paid holidays, increased minimum guarantees and pay for delay and waiting time.

## Miss Nancy Pyle is Crowned Harvest Queen at Carrier Mills

Miss Nancy Pyle was crowned Harvest Queen to climax the most successful Halloween celebration in many years at Carrier Mills.

Each year the Lions club of Carrier Mills sponsors the Halloween celebration and members of the club report that the streets were crowded early last night as the good weather, plus an interesting program and plenty of valuable prizes for the masqueraders combined to make the 1956 celebration "the best yet."

In conjunction with the Halloween celebration, a Harvest Queen contest is held each year. Miss Nancy Pyle is the 1956 Harvest Queen. Helen Dorris was second and Linda Powell third in the contest. Others participating were Pat Dunn, Jolene Yates and Betty Brandon.

## STOCKS ADVANCE

NEW YORK (UPI) — Stocks responded today to President Eisenhower's statement there would be no U. S. involvement in the Middle East fighting.

Opening firm, the market advanced further in the early trading. Then in the second hour activity increased for a time and the whole list got a new lift.

Authorities identified the victim as Chester Stewart, 23. Ronald Stewart, 19, also of Fairfield, was injured. The truck driver escaped injury.

## No Involvement by U. S.: Eisenhower

(Continued from Page One) catic attacks on the administration's handling of foreign affairs. Spoke As "President"

In his talk Wednesday night, Mr. Eisenhower said he was speaking as "your president" and not in his role as a candidate for reelection. He made these major points:

— The United States was "not consulted in any way . . . nor informed in advance" by Israel, Britain or France of their intentions to attack Egypt.

— The United States believes that in resorting to military force in their quarrels with Egypt, those three nations acted "in error." This country does "not accept the use of force as a wise or proper instrument for the settlement of international disputes."

— "We know" the three attacking nations "have been subjected to grave and repeated provocations" by Egypt. Nevertheless, their armed attack "can scarcely be reconciled with the principles and purposes of the United Nations to which we have all subscribed."

— "There will be no United States involvement in these present hostilities. I therefore have no plan to call the Congress in special session."

## Four Children Killed By Auto While Making 'Trick or Treat' Rounds

Four children were killed when they were struck by an auto at Brussels, Wis., Wednesday night during Halloween activities.

The children were among a group of 10 making the traditional "trick or treat" rounds when a car driven by Alfonse Hilberg, 25, Brussels, ran into them. Three other children were injured—none critically — while three other youngsters escaped injury.

State police said Ferguson suffered only bruises and shock.

## Auto Hits Train In Fog; Three Dead

KANKAKEE, Ill. (UPI) — Heavy fog was blamed for an auto-train collision that killed a young couple and their son, and injured three other sons seven miles west of here Wednesday night.

Dead were Donald Effington, 23, Kempton; his wife, Shirley, 21, and their 1-year-old son, Kim.

HAMMOND, Ind. (UPI) — Police uncovered a spine-chilling murder mystery late Wednesday with the confessions of a mother and her son in the slaying of the boy's drunken step-father.

Anthony Brewbaker, 16, and his mother, Gladys Martin, 35, signed statements obtained by Police Capt. Ray Johnson in which they detailed their parts in the fatal shooting of Robert Martin, 32, early Monday in the family car.

Brewbaker confessed he shot and killed his stepfather while his mother admitted she was the mastermind of the plot.

Mrs. Martin also admitted blaming the murder on a "phantom" hitchhiker which began a three-state manhunt for the killer.

Johnson said Brewbaker's 12-year old sister, Marianne, who also was in the car when the shooting occurred, "took no part in it but knew of the plot beforehand."

Mrs. Martin and the children were expected to be transferred either today or Friday from the city jail here to the Lake County Criminal Court at Crown Point where charges will be filed.

In her statement, Mrs. Martin said constant marital strife had marred the last four or five years of her marriage to Martin. She said the decision to kill her husband was made some time ago.

## Founder of Kresge Stores is Still Active as Chairman of Company Board

You know that if all Kresge store fronts were lined up side by side they would stretch over ten miles? . . . and if all the counters in Kresge stores were placed end to end they would stretch more than 100 miles?

An offspring of the early twentieth century, stores of the S. S. Kresge Company today sweep west from the Atlantic seaboard to Nebraska and extend across Canada. Harrisburg's enlarged Kresge store is but one of the 670 units in the United States and Canada.

The company, now in its 57th year, is still a young and growing concern and dependent on many leaders for its characteristic verve and drive. But its story is tied fundamentally to the fabulous story of Sebastian S. Kresge, a farm boy who rose to establish and direct the second largest variety store company in the world.

Kresge's early life reads like a "stranger than fiction" tale. As a very young man, he walked daily to attend an academy seven miles away. He worked on his parents' farm, taught school, clerked in a grocery store. Still later he worked in a wholesale produce business, sold insurance, sold house furnishings door-to-door, held part-interest in a bakery and was a bookkeeper for a hardware company.

All of this Kresge accomplished before he was 25 years old. Before he was 30, he had traveled the north central and New England states as a tinware salesman, and had saved \$8000 to invest in business.

It was during his travels that he recognized the need for a store that would supply families with more of the everyday and small luxury items they wanted, with a price range of five and ten cents.

On a sunny morning in October, 1899, pedestrians on a main street in downtown Detroit, Michigan, paused to watch a man painting a sign over the first Kresge store.

Today Kresge stores carry a wide range of ready-to-wear and household necessities up to the \$10 range as well as the still-popular five-and-ten-cent notions and novelties.

A significant change in "dime" stores is their location. First situated in downtown city sections, they expanded into neighborhood areas and today play an important part in suburban shopping centers.

# Bull Dogs Play At West Frankfort Friday Night; Eagles at Benton

**Victory Would Move Locals Out of Cellar**

The Harrisburg Bull Dogs football team, for the second time in three weeks, gets a chance to move out of the South Seven conference cellar tomorrow night.

Two weeks ago Harrisburg went calling on Herrin when the two teams were tied for the bottom. Herrin won.

Tomorrow night they make another trip—to West Frankfort—and can jump up ahead of the Red Birds with a victory.

Right now West Frankfort is a rung higher because of its mark of two losses and a tie against no wins in conference play. The Bull Dogs have not won a game but have four loop losses.

Centralia and Benton continue to be tied for the league lead with three wins and a tie (against each other) and Benton's league record will not change this week because the Rams go out of the South Seven to play in the most interesting southern Illinois game of the week. Centralia will take on fourth place Mt. Vernon in the other conference game.

**Eagles Meet Benton**

Egypt's top game will be against Eldorado on the Benton field. Eldorado, only undefeated and untied team in southern Illinois, will meet the biggest obstacle in their path to a perfect season when

they tangle with the highly-regarded Rangers.

Eldorado, with seven wins, will be meeting a team that has lost only to Danville, a strong outfit that has lost but one game, to Champaign.

Two other South Seven teams, Herrin and Marion, also play outside the conference. Third place Marion will entertain Chester and fifth place Herrin will be host to the hapless warriors of Johnston City. The Indians, like the Bull Dogs, are getting their bumps this year.

Other games this week-end are Carbondale at Du Quoin, Pinckneyville at Sparta, Valler at Sesser, Carterville at Elkville, Shawnee at Zeigler, Metropolis at Alton, McLeansboro at Christopher, Anna-Jonesboro at Murphysboro, Carmi at Bridgeport, Bloomington at Salem, and Cairo at Cartherville, Mo.

**Locals End Season Nov. 10**

The local boys wind up their season against Benton here the night of Saturday, Nov. 10.

Most other teams are also finishing the pigskin parade around Veterans Day, which is Nov. 11 and is being observed Nov. 12 because Nov. 11 is on Sunday. And this week-end, conference championships will be on the line all over the state.

Champaign's all-conquering Macons can sew up the Big 12 title Friday against traditional rival Urbana, which hasn't won a conference game. The Big Eight crown also should be decided in the showdown battle between defending Elgin and Aurora East, both unbeaten in conference play.

Salem, which meets Bloomington, already has cinched at least a share of the North Egypt crown with a 50 mark.

The Eastern Illinois race is still up for grabs. Undefeated Effingham meets Flora in a non-conference game, while Oblong, in second place, runs into conference foe Martinsville.

Murphysboro continues to lead the Southwest Egypt conference with Carbondale close behind. Murphy has won four, lost none, and Carbondale has won three but has tied one with Chester.

The South Seven standings:

Team	W	L	T
Centralia	3	0	1
Benton	3	0	1
Marion	3	2	0
Mt. Vernon	2	2	1
Herrin	2	3	0
West Frankfort	0	2	1
Harrisburg	0	4	1

**Price Resigns As Coach of Texas Longhorns**

AUSTIN, Tex. (UPI)—Ed Price, the most successful Southwest Conference coach, resigned his job Wednesday after his 1956 Texas Longhorns dropped five of their six games and he had been hanged in effigy.

The resignation is effective Dec. 31. Price still had another year to go on a contract calling for \$12,500 per season.

The athletic council accepted the resignation "with regret" and indicated that no action would be taken toward naming a successor until after the season ends.

Price's resignation left the university with two top posts to fill. Veteran Athletic Director Dana X. Bible is stepping down to modified service at the end of this school year. Price had been mentioned as a possible successor.

There is a possibility the athletic council may combine the two jobs, as Bible wishes to remain in an advisory capacity.

Price, a quiet-spoken, 47-year-old Texas product, had a conference record to date of 20 victories, 11 losses and one tie, better than any of his rival coaches in the powerful Southwest loop can muster. His overall record is 33 victories, 26 losses and a tie.

**Reports Employment At All-Time High**

NEWARK, N. J. (UPI)—Secretary of Labor James P. Mitchell reported Tuesday that national employment reached an all-time high for the month of October with 66,200,000 persons holding jobs.

October's unemployment figure was 1,900,000—a rate, Mitchell said, as low as any reported for a peacetime October in history.

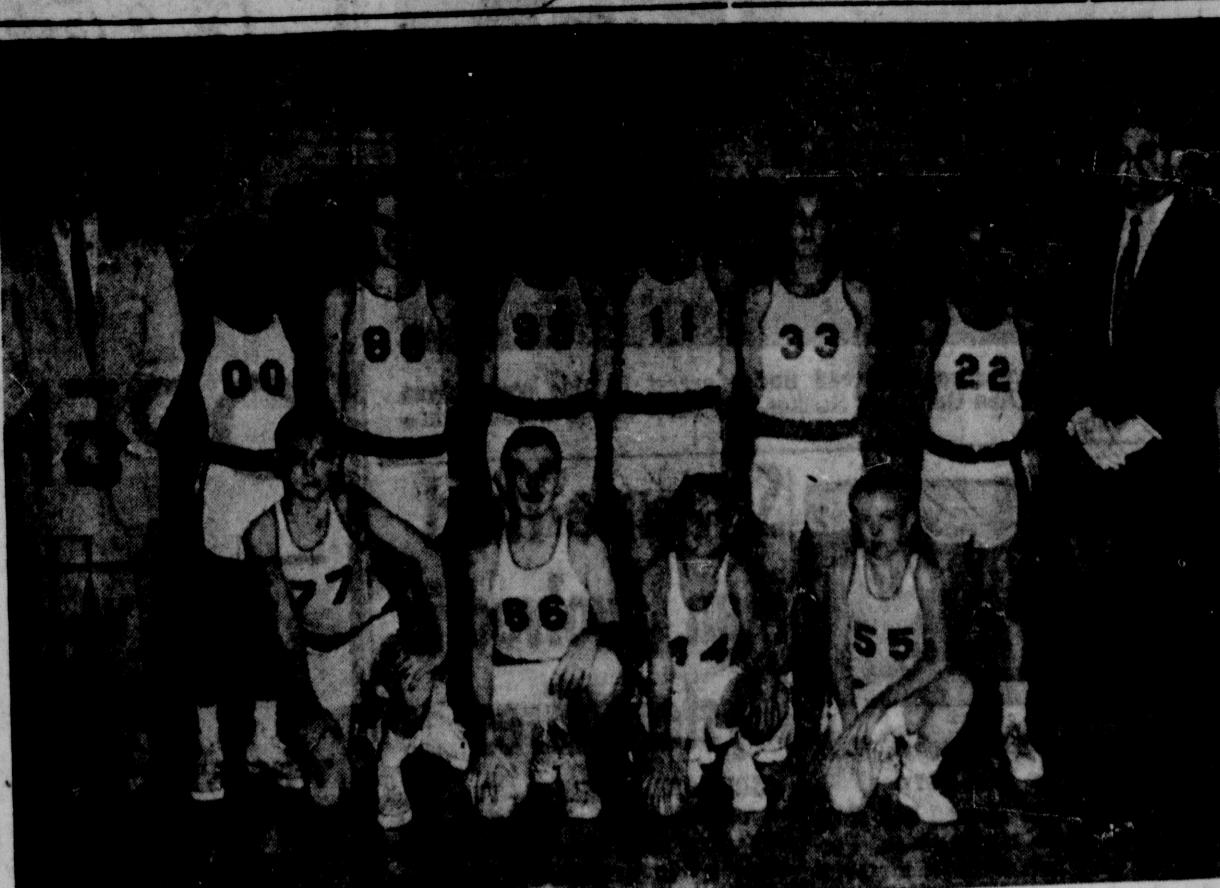

**Prison Population Shows Increase**

SPRINGFIELD (UPI)—The average daily inmate census of Illinois penal institutions for September totaled 9,464, an increase of 479 over September, 1955, the Public Safety Department announced Tuesday.

The average census included 4,382 at Joliet-Stateville, 2,140 at Menard, 1,312 at Pontiac, 1,324 at the State Prison Farm at Vandalia, and 306 at the State Reformatory for Women.

The southwestern part of the United States produces more bacon than any other part of the world.

### Marty Marion Candidate for Cleveland Post

By United Press

Marty Marion offered himself as a new "big name" candidate to manage the Cleveland Indians today a few hours after Leo Durocher bowed out of the picture.

At the same time, Kerby Farrell—the man who seemed to have the job "locked up" a month ago and may still wind up with it—was unanimously acclaimed the American Association's manager of the year.

Marion, who resigned after a stormy session with Chicago White Sox officials last week, announced he would be "interested" in talking to Cleveland General Manager Hank Greenberg about the vacant job. Marion's statement came shortly after Greenberg's announcement that Durocher could no longer be considered a candidate.

Marion disclosed in St. Louis that he already had a "feeler" from Greenberg. He said he planned to discuss the job with Greenberg but that no time or place had yet been set. Marion already has been succeeded at Chicago by Al Lopez—the man who started the coast-to-coast rumor by resigning as the Indians' pilot at the close of the campaign.

The 43-year-old Farrell, meanwhile, was unanimously voted the manager of the year in the AA by the league's baseball writers. He led the Indianapolis Indians to the pennant, play-off title and to the Little World Series crown over Rochester of the International League.

The New York Giants, who have been unusually active so far this winter, hired ex-Yankee star Tom Heinrich as a third base coach and an instructor for their weak hitters. Heinrich, who has been out of baseball since 1951, had an opportunity to see the Giants at close range when he substituted for ailing TV announcer Frank Frisch during the last two months of the season.

### Thinking It Over

By Robert L. Dieffenbacher, D. D.  
(Written for NEA Service)

The light bulb burned out from long use or too much abuse. Possibly it was not made of material to stand the wear and tear to which we put it. It could be that we had a fluctuating voltage. So many factors are involved that we cannot be sure of the cause.

In any case the bulb will not respond to the turn of the switch as it did for many months. There is nothing to do but to replace it with a new one which is functional.

We can easily remove the ineffective object. It is inanimate. It has no feeling, no life, no personality. The bulb was only glass and metal—an object with only one purpose.

When people become ineffective, the task of replacement is more difficult. We cannot take human beings from their niche in life and toss them aside. We cannot buy folk at the corner store. We do not trade them over the counter. They are not inanimate.

Dealing with one person affects many more people. One person dropped by the wayside changes the lives of families, friends, neighbors and people thousands of miles away.

As we treat people we must remember that we are not influencing a commodity, but the lives and souls of scores of others. All these people are part of God's living pattern.

### Sentence Third Man Involved in Mystery Fires

GOLCONDA, Ill. — The third man involved in a series of mystery fires that had Golconda residents up in arms last November has been sentenced to prison.

Elmer Foreman, 48, of Golconda, pleaded guilty to one indictment of arson this week and was sentenced to from 4 to 7 years by Circuit Judge Clarence E. Wright of Carbondale.

Five other indictments, four for arson and one for burglary, against Foreman were dismissed.

Foreman pleaded guilty to assisting in attempting to set fire to the Amos E. Tanner home on Nov. 18, 1955. An automobile tire was set afire in the living room of the home which was under construction. Wind put out the blaze before much damage was done.

A series of about 12 fires last November at homes, barns and the Pope County Fairgrounds had residents patrolling the city with guns.

Two other men, James E. Belt, 34, and Herbert Irby, 32, both of Golconda, pleaded guilty last February to three indictments and are serving 3 to 5-year terms in prison.

Two other Golconda men, Carl Garrison and Carl Gilliam, are still being sought in the case, authorities said.

Foreman had been jailed since late in August after he had served a year in federal prison at Fort Leavenworth, Kan., for illegal transportation of untaxed liquor.

The Dove with Fangs

Editorial — BY BRUCE BROSSAT These are surely among the unhappiest days in the Kremlin since the close of World War II. Not only have cracks developed in Russia's satellite empire, but the Communist leaders are having to show again the fraudulence of their pose as "peace lovers."

Their position is not without its irony.

In Poland, their display of armed might added up to nothing as they reluctantly accepted the accomplished fact of the Poles' new partial independence.

Then Hungary erupted and Moscow felt compelled to use force swiftly to quell heavy rioting.

So the Soviets have evidently lost ground on both counts. They have neither preserved their empire as it was, nor have they kept the image they have fostered so long that communism is the way of peace and order and human betterment.

Poland's gains may be relatively modest when measured against the standards of true freedom. The government is still Communist, though nationalists rather than pro-Soviets now dominate it.

Nevertheless, the exercise of this defiance is a tonic to freedom not only in Poland but in all the satellites.

Russia may not concede it has lost this struggle. It may believe it can bide time and recapture its powerful hold on the Poles in other more favorable circumstances.

But the net of it today is bad news for Moscow.

Hungary is the proof of that, and the cause, at once, of the Kremlin's second headache. For their rebellious spirit burst forth so vigorously that Moscow's answer to the Hungarians was inevitably planes and tanks.

In giving that reply, it has once more stripped off the peace mask and exposed itself as the practitioner of violence.

The years of carefully nurtured propaganda aimed at winning Asiatic and other uncommitted peoples have been put in grave jeopardy. Even the most gullible neutrals and other fence-sitters must be appalled at Russia's use of force to crush this upwelling of spirit in Hungary.

Since Communist governments still reign in both Hungary and Poland, it can't be said that freedom has won great victories there. But the bonds of tyranny have been weakened. That is a big step toward final freedom, and surely represents huge gains for the free world watching these remarkable events.

SIU Selected to Begin AFROTC Flying Training

CARBONDALE, Ill. — Southern Illinois University has been selected as one of 42 educational institutions to begin Air Force ROTC flying training during the current school year.

The announcement from AFROTC headquarters at Maxwell Air Force Base said the remaining 137 schools with Air Force ROTC units will be added to the new nationwide program in the next two years.

In September Southern was chosen as one of the 10 universities in the nation to offer a WAF officer training program.

The new program will be a principal feature of the regular Air Force ROTC course at SIU and will consist of 35 hours of light plane training.

BIBLE THOUGHT FOR TODAY

And they that believed were together and had all things common. Acts 2:44.

They expected the end of the world immediately. Many since that day have made similar anticipations though the Bible definitely says that no man knows the time of the end. People believed what they want to believe often. This mistake made paupers of the saints of Jerusalem, and the church at large took up collection for them for many years after.

Calves usually are the least risk for feeding, since they grow and fatten at the same time.

The Washington Merry-Go-Round

By BREW PEARSON

DREW PEARSON Says: Israel Feared Russian Arms in Nasser's Hands; War Was Inevitable After Suez Dispute Ended; No Borders in Palestine.

WASHINGTON. — The reason for the Israeli attack on Egypt was quite simple. It was based on the assumption that Colonel Nasser, once he had the Suez Canal dispute settled and the French and British armies off his neck, was certain to attack Israel.

As long as the United Nations had him on the spot and as long as British and French troops hovered near him, Israel knew it was in no danger.

But with around \$280,000,000 worth of Russian arms stashed away in his arsenals, and with the Arab world looking to him for leadership against the West, Nasser was almost certain to attack.

Israel had the alternative of sitting still, expecting an overnight raid from modern Russian MIG's which could reach Tel Aviv from the Egyptian border in about 30 minutes, or of taking the initiative.

So when Iraqi troops entered Jordan to cement a military alliance, and when Jordan, Syria and Egypt also tightened their military hook-ups, Israeli army chiefs decided it was time to strike.

AS BIG AS MASSACHUSETTS

To get the picture of what's going on, you have to envisage a little country about the size of Massachusetts, only much narrower in spots. In one place Israel extends only seven miles from Nathanya on the Mediterranean, named for Nathan Strauss, the first U. S. housing administrator to the border of Jordan. The airport near Tel Aviv is only two and a half miles from the border, while Jordan comes within ten yards of the Sea of Galilee.

Thus, in every direction Israel faces, except toward the Mediterranean, she is surrounded by Arab neighbors.

This came about because in 1948, when the British gave up their Palestine mandate under the League of Nations, the Arab countries decided to move in and carve up Palestine. They were so confident that some wealthier Arabs left their homes with all their clothes behind figuring they would be back in a few days after the Jews had been pushed out.

Instead the Jews pushed the Egyptian army, strongest of all the Arab forces, right down to the edge of the Suez Canal. They would have pushed them back to Cairo if the British hadn't intervened.

Other Arab neighbors were pushed back well beyond the original boundaries proposed by the United Nations in 1947. Jewish leaders had accepted this boundary. The Arabs had not. Ever since, the Arabs have been trying to go back to the 1947 UN proposal which they rejected.

But Premier Ben-Gurion's reply is: "We accept if the Arabs will return the 5,000 dead Israelis lost in that war."

WARS SINCE GOLIATH

None of the borders around Israel are marked by barbed wire entanglements or even stone markers. When you come to the edge of the Iron Curtain around the Soviet, you are halted by a mass of barbed wire. Along the Canadian-American boundary are white stone pillars.

But between Israel and the Arab countries there is nothing.

An Arab girl can be tending her flock on one side of the border and a young Jewish farmer can be driving a tractor a few yards away. They know where the border is because they live there. A stranger wouldn't.

This lack of fortifications makes border raids easy. Raiding parties forged back and forth across the border at least once a week while I was in Israel.

The Negev, where the trouble started between Egypt and Israel, is one of the wildest, roughest areas in the Near East. Bedouins and their flocks roam over parched sand and hills that remind you of the table land of Arizona or the Bad Lands of South Dakota.

It is not a land worth fighting for, but war after war has been fought here nonetheless since David slew Goliath and since Samson slew the Philistines with the jawbone of an ass.

It is down in this corner between Israel and Egypt also that Moses led the Tribes of Israel across the Red Sea as far as the hills of Moab. More recently it is in this general area that the Egyptians have cut off Israeli ships from coming up to Elath at the head of the Red Sea. They have even prevented Israeli planes from flying over this area. Israeli ships were the first to be banned from the Suez Canal even at a time when France and Britain still controlled its navigation.

PACKAGE PLANS FOR PEACE

The only thing that could have stopped a Near Eastern War was a package peace plan for both Suez and the entire area. Such a package plan was advocated by Truman and Johnston have argued that the Arabs and Jews are both Semitic peoples, both descended from the Prophet Abraham, and that tying them together on economic projects could finally bring peace to the Near East.

## No Nagging Backache Means a Good Night's Sleep

Nagging backache, headache, or muscular  
aches and pains may come on with over-exer-  
cise, emotional upsets or day after day stress and  
strain. And folks who eat and drink and  
smoke, sometimes feel the most uncomfortable  
feeling of all the various uncomfortable feelings.  
If you are miserable and worn out because  
of these discomforts, Doan's Pills often help  
by their pain-relieving action, but their  
main effort is to help you get a good night's  
sleep. So if you're uncomfortable, take  
a Doan's Pill. It's the best way to get a  
good night's sleep.

# Eisenhower to Defend Handling Mid-East Crisis

By United Press

President Eisenhower, highly indignant over Adlai E. Stevenson's charges of bungling GOP foreign policy, fights back today in defense of administration handling of the Middle East crisis.

Stevenson asks today for free radio and television time to tell how the Eisenhower administration has taken "the whole world to the brink of another war."

Mr. Eisenhower is scheduled to make a nationwide television and radio campaign address from convention hall in Philadelphia at 8:30 p. m. CST tonight.

Clayton Fritchey, Stevenson's press secretary, said the Democratic presidential candidate was asking radio and TV networks to give him 15 minutes at 6 p. m. CST tonight to comment on the presidential statement on the Israel-Egyptian fighting and the Anglo-French ultimatum.

Replies Indirectly to Message

The White House ignored for the moment a Stevenson telegram to the President Wednesday night counseling Mr. Eisenhower against any "hasty action" in sending American troops abroad.

Mr. Eisenhower, in a report to the nation Wednesday night, said there will be "no United States involvement" in the current hostilities involving Israel, Egypt, Great Britain and France.

The President's statement was regarded presently by the White House as sufficient answer to Stevenson who sent his message shortly before Mr. Eisenhower spoke.

In his strongest accusation against administration foreign policy, Stevenson said the President and Secretary of State John Foster Dulles "bear a heavy responsibility" for the Middle East situation.

The President, in a preamble to his address Wednesday night, said the events and issues involved in the Middle East "have no connection whatsoever with the matters of partisanship."

## No Involvement by U. S.: Eisenhower

(Continued from Page One) eratic attacks on the administration's handling of foreign affairs. Spoke As "President"

In his talk Wednesday night, Mr. Eisenhower said he was speaking as "your president" and not in his role as a candidate for reelection. He made these major points:

— The United States was "not consulted in any way . . . nor informed in advance" by Israel, Britain or France of their intentions to attack Egypt.

The United States believes that in resorting to military force in their quarrels with Egypt, those three nations acted "in error." This country does "not accept the use of force as a wise or proper instrument for the settlement of international disputes."

"We know" the three attacking nations "have been subjected to grave and repeated provocations" by Egypt. Nevertheless, their armed attack "can scarcely be reconciled with the principles and purposes of the United Nations to which we have all subscribed."

"There will be no United States involvement in these present hostilities. I therefore have no plan to call the Congress in special session."

## Mother, Son Admit Killing Boy's Stepfather

HAMMOND, Ind. (UPI) — Police

uncovered a spine-chilling murder mystery late Wednesday with the confessions of a mother and her son in the slaying of the boy's drunken step-father.

Anthony Brewbaker, 16, and his mother, Gladys Martin, 35, signed statements obtained by Police Capt. Ray Johnson in which they detailed their parts in the fatal shooting of Robert Martin, 32, early Monday in the family car.

Brewbaker confessed he shot and killed his step-father while his mother admitted she was the mastermind of the plot.

Mrs. Martin also admitted blinding the murder on a "phantom" hitchhiker which began a three-state manhunt for the killer.

Johnson said Brewbaker's 12-year-old sister, Marianne, who also was in the car when the shooting occurred, "took no part in it but was a part of the plot beforehand."

Mrs. Martin and the children were expected to be transferred either today or Friday from the city jail here to the Lake County Criminal Court at Crown Point where charges will be filed.

In her statement, Mrs. Martin said constant marital strife had marred the last four or five years of her marriage to Martin. She said the decision to kill her husband was made some time ago.

A 80 x 100 foot industrial building will be constructed for the business on a four-acre tract of land on Route 45, south of the intersection of Routes 145 and 42 in Eldorado.

A small force will be employed in the beginning operations of the plant, but it is estimated that 75 to 100 will be employed after the business is in full swing.

Mr. Douglas and Mr. Bourdeau were attracted to Eldorado by the town's community development program.

Ernie Webster is acting secretary of the Eldorado Manufacturing Company and the company's legal work is being handled by the law firm of Summers and Argus.

# Bull Dogs Play At West Frankfort Friday Night; Eagles at Benton

**Victory Would Move Locals Out of Cellar**

The Harrisburg Bull Dogs football team, for the second time in three weeks, gets a chance to move out of the South Seven conference cellar tomorrow night.

Two weeks ago Harrisburg went calling on Herrin when the two teams were tied for the bottom. Herrin won.

Tomorrow night they make another trip to West Frankfort and can jump up ahead of the Red Birds with a victory.

Right now West Frankfort is a rung higher because of its mark of two losses and a tie against no wins in conference play. The Bull Dogs have not won a game but have four loop losses.

Centralia and Benton continue to be tied for the league lead with three wins and a tie (against each other) and Benton's league record will not change this week because the Rangers go out of the South Seven to play in the most interesting southern Illinois game of the week. Centralia will take on fourth place Mt. Vernon in the other conference game.

**Eagles Meet Benton**

Egypt's top game will be against Eldorado on the Benton field. Eldorado, only undefeated and untied team in southern Illinois, will meet the biggest obstacle in their path to a perfect season when

### Marty Marion Candidate for Cleveland Post

By United Press

Marty Marion offered himself as a new "big name" candidate to manage the Cleveland Indians to day a few hours after Leo Durocher bowed out of the picture.

At the same time, Kerby Farrell—the man who seemed to have the job "locked up" a month ago and may still wind up with it—was unanimously acclaimed the American Association's manager.

Murphysboro continues to lead the Southwest Egypt conference with Carbondale close behind.

Murphy has won four, lost one, and Carbondale has won three but has tied one with Chester.

The South Seven standings:

Team	W	L	T
Centralia	3	0	1
Benton	3	0	1
Marion	3	2	0
MT. Vernon	2	2	0
Herrin	2	3	0
West Frankfort	0	2	1
Harrisburg	0	4	1

### Price Resigns As Coach of Texas Longhorns

AUSTIN, Tex. (AP)—Ed Price, the most successful Southwest Conference coach, resigned his job Wednesday after his 1956 Texas Longhorns dropped five of their six games and he had been hanged in effigy.

The resignation is effective Dec. 31. Price still had another year to go on a contract calling for \$12,500 per season.

The athletic council accepted the resignation "with regret" and indicated that no action would be taken toward naming a successor until after the season ends.

Price's resignation left the university with two top posts to fill. Veteran Athletic Director Dana X. Bible is stepping down to modified service at the end of this school year. Price had been mentioned as a possible successor.

There is a possibility the athletic council may combine the two jobs, as Bible wishes to remain in an advisory capacity.

Price, a quiet-spoken, 47-year old Texas product, had a conference record to date of 20 victories, 11 losses and one tie, better than any of his rival coaches in the powerful Southwest loop can muster. His overall record is 33 victories, 26 losses and a tie.

### Reports Employment At All-Time High

NEWARK, N. J. (AP)—Secretary of Labor James P. Mitchell reported Tuesday that national employment reached an all-time high for the month of October with 66,200,000 persons holding jobs.

October's unemployment figure was 1,900,000—a rate, Mitchell said, as low as any reported for a peacetime October in history.

### Prison Population Shows Increase

SPRINGFIELD (UPI)—The average daily inmate census of Illinois penal institutions for September totaled 9,464, an increase of 49 over September, 1955, the Public Safety Department announced Tuesday.

The average census included 4,362 at Joliet-Stateville, 2,140 at Menard, 1,312 at Pontiac, 1,324 at the State Prison Farm at Vandalia, and 306 at the State Reformatory for Women.

### National League Reports Record Attendance of 8,649,567 Fans

CINCINNATI, Ohio (UPI)—Baseball's continued rise in popularity plus a hot three-team pennant race right down to the wire were singled out today as the reasons for a "record" turnout for National League games in 1956.

A total of 8,649,567 fans paid their way into the league's parks during the 1956 season, representing a 12.7 per cent increase over 1955 and a new all-time high for a "normal" year, according to figures released by National League Publicist Dave Gross.

The tight pennant chase, involving the Dodgers, Braves and Redlegs, was attributed as the main reason for the big increase along with the continued rise in the sport's popularity since 1953—the last previous year in which three teams battled for the flag right through to the end of the season—when 3,512,108 fans paid their way in.

The NL's all-time record attendance prior to World War II was 5,146,532, this mark was set in 1920 and stood as the league's all-time high until 1946.

The 1949 season was the league's

banner campaign in which 9,847,715 fans flocked to the parks. The 1956 figure is the greatest since 1949 and topped the 1955 mark by nearly one million.

Four clubs—and significantly the ones that finished in the first division—went over the one million mark, while two others, Philadelphia and Pittsburgh, went over 39,000.

The Braves led all clubs with a 2,045,331 figure. Brooklyn was next at 1,213,582. Cincinnati was third at 1,123,928—a new club mark—and St. Louis was fourth at 1,029,773.

Pittsburgh was fifth with 949,785. Philadelphia sixth with 934,788. Chicago seventh with 720,118 and New York last with 629,179.

### Attendance Up

NEW YORK (UPI)—College football attendance is up 6.81 per cent this season over the corresponding period a year ago and the only section to show a decrease is the scandal-plagued Pacific Coast, a United Press survey revealed today.

The biggest increases overall were in the Southwest which showed a whopping gain of 20.37 per cent and the East where the crowds were up 17.26 per cent. The Rocky Mountain area showed a 7.98 per cent boost, the Midwest was up 6.21 per cent, the South 1.25 and the Midlands 1.13.

The crowd decline on the Pacific Coast was not severe, totaling 1.65 per cent and it was due mainly to a drop of more than 10,000 at UCLA. Other conference

### Army-Navy Game a Sellout

PHILADELPHIA (UPI)—You'll have to know an admiral or general if you're short ticket and still want to see this year's Army-Navy game at Municipal Stadium, Dec. 1—and even that might not help.

The two academies announced simultaneously Wednesday that the annual classic is a sellout.

schools reported attendance gains.

The tabulations were based on home crowds at 112 colleges and showed a total of 7,774,062 fans at 316 games to date as compared with 7,289,553 for the same number of games at this stage in 1955.

The average attendance per game nationwide this year is 24,608 as against 23,040 for last year.

Thinking  
It Over

By Robert L. Dieffenbacher, D. D.  
(Written for NEA Service)

The light bulb burned out from long use or too much abuse. Possibly it was not made of material to stand the wear and tear to which we put it. It could be that we had a fluctuating voltage. So many factors are involved that we cannot be sure of the cause.

In any case the bulb will not respond to the turn of the switch as it did for many months. There is nothing to do but to replace it with a new one which is functional.

We can easily remove the ineffective object. It is inanimate. It has no feeling, no life, no personality. The bulb was only glass and metal—an object with only one purpose.

When people become ineffective, the task of replacement is more difficult. We cannot take human beings from their niche in life and toss them aside. We cannot buy folk at the corner store. We do not trade them over the counter. They are not inanimate.

Dealing with one person affects many more people. One person dropped by the wayside changes the lives of families, friends, neighbors and people thousands of miles away.

As we treat people we must remember that we are not influencing a commodity, but the lives and souls of scores of others. All these people are part of God's living pattern.

Six Youths Admit  
Seven Burglaries

MARION, Ill. (AP)—Six teen-aged youths have confessed to seven burglaries in Williamson County during the past three weeks. Asst. State's Atty. Robert Butler said today.

Butler said the boys, ranging in age from 15 to 18, are from Johnston City and Marion. They led officers to a cache of stolen goods including a rifle, two shotguns, shells, anti-freeze, knives and a meat cleaver.

California has some of the largest vineyards in the world.

Sentence Third  
Man Involved in  
Mystery Fires

GOLCONDA, Ill. (AP)—The third man involved in a series of mystery fires that had Golconda residents up in arms last November has been sentenced to prison.

Elmer Foreman, 48, of Golconda, pleaded guilty to one indictment of arson this week and was sentenced to from 4 to 7 years by Circuit Judge Clarence E. Wright of Carbondale.

Five other indictments, four for arson and one for burglary, against Foreman were dismissed.

Foreman pleaded guilty to assisting in attempting to set fire to the Amos E. Tanner home on Nov. 18, 1955. An automobile tire was set afire in the living room of the home which was under construction. Wind put out the blaze before much damage was done.

A series of about 12 fires last November at homes, barns and the County Fairgrounds had residents patrolling the city with guns.

Two other men, James E. Belt, 34, and Herbert Irby, 32, both of Golconda, pleaded guilty last February to three indictments and are serving 3-to-5 year terms in prison.

Two other Golconda men, Carl Garrison and Carl Gilliam, are still being sought in the case, authorities said.

Foreman had been jailed since late in August after he had served a year in federal prison at Fort Leavenworth, Kan., for illegal transportation of untaxed liquor.
